

COLOURS:

With its warm colours, smooth slopes and broad curves, Novatik NATURA ROMAN perfectly captures the ageless appeal of sunbaked Mediterranean roofs, but unlike traditional terracotta tiles our NATURA ROMAN panels are lightweight and immensely strong. Novatik NATURA ROMAN tiles are produced using premium quality steel, protected with an Aluminium Zinc layer on both sides and covered with natural volcanic stone chips. This protection of the steel we use, provides our product 8 times higher corrosion resistance than other metal tiles.
